

Hirsana helps hair grow...

Hirsana capsules, designed specifically for hair, contain necessary nutrients for optimum hair growth.

While it is often thought that a shampoo is the best way to deliver vitamins and minerals to the hair, the reality is that hair grows from the inside out, rather than the outside in.

So for anything from thinning to greying hair, Hirsana golden millet capsules may be the ideal solution.

Millet is tremendously healthy.

The plant is simple to cultivate, thrives on little water and even yields in places where other cereals do not grow.

For centuries, people have known that millet is good for the skin, hair and nails. After 12 years of development, E Zwicky, the Swiss manufacturer of highly nutritious organic products succeeded in extracting pure oil from golden millet.

Golden millet oil contains 64.9 per cent linoleic acid and 1.4pc alpha linolenic

acid as well as Vitamin E and Vitamin B6.

Hirsana golden millet oil capsules contain the natural active ingredients of golden millet in highly concentrated form and offer a highly effective formula for thick and shining hair, beautiful skin and strong nails.

The capsules counteract certain dietary related signs of deficiency.

They boost the supply of all the important nutrients, vitamins and zinc to the hair, skin and nails and strengthen hair, leaving it thick and shiny and stop hair loss.

Hirsana golden millet oil also supports natural skin functions and gives you the benefit of clean, attractive skin.

In addition, Hirsana also boosts the strength and lustre of fingernails.

Every capsule contains 200mg of top quality, pure golden millet oil along with Vitamin E, Vitamin B6, Thiamin, Riboflavin, Pantothenic acid, Biotin and Zinc.

Vitamin E serves as an antioxidant and protects

cells against free radicals. Vitamin B6 boosts the metabolism, among other things.

Thiamin makes an important contribution towards ensuring that the nervous system continues to function normally while riboflavin supports the formation of blood cells.

Meanwhile, pantothenic acid is involved in the meta-

bolic process for energy recovery while biotin plays an important role in metabolic processes.

The trace element zinc supports the build up of protein produced within the body.

Lovely Lolita cares for your nails

The beauty-conscious know the address for the most effective hair and nail therapies.

Nestled in the Golden Sands building in Hooraa, the Lovely Lolita beauty salon is open for the benefit of women looking to rediscover their innate beauty.

The salon's ground floor is dedicated solely to the care and treatment of nails, whilst the hairdressing and beauty sections, including waxing, threading, and massage sections, are on the first floor.

Hygiene is always a major priority and ensures that every instrument used is sterilised before and after every treatment.

Hair and skin differ from person to person. Accordingly, different basecoats are used to treat every kind of nail, whether dry, yellow, peeling, weak, damaged or post-acrylic.

Pamper your nails by adding a paraffin treatment or masque for your hands or feet. Guests are spoiled for choice with a range of over 350 nail polish colours to choose from, and you are sure to find the perfect match for your ensemble.

A range of beauty treatments are available. The salon operates daily from 9.30am to 8.30pm. Contact 17540101 or e-mail lolitabahrain@gmail.com for more information.
